

DEATH AT CORONADO OF MRS. WALTER G. SMITH

Mrs. Walter Gifford Smith died last evening at Coronado Beach, California, whither she went four months ago in search of health. Mrs. Smith had a serious operation three and a half years ago, which was followed by attacks of dengue fever and pneumonia. The latter malady left her with a throat affection which did not yield to treatment and which worried her into a state of nervous prostration. She left here on September 13 in a weak state and stayed a short time in San Francisco, going then to Coronado Beach, her former home, where she had always been well. Early in October she became helpless, no one being allowed to see her but her nurse and doctor until her son visited her about three weeks ago. Late letters from friends said she had a good chance of recovery. Mrs. Smith was a native of Illinois, but spent the greater part of her girlhood in New York, where she was married in the winter of 1882. Besides her husband she leaves a son, Ernest N. Smith, who is a student at Stanford University, and two daughters, Agnes and Edith Smith, who are at Oahu College. Her remains will be sent to New York for burial.

Why Our HAMS and BACON Are So Good.

Because we get the best Eastern hams and bacon to start with, then, what is most important, we re-smoke them fresh every other day. That gives them the rich, juicy flavor you always find in those we sell. Unless the meat is thus treated you will find it dry and unpalatable. Try a small order and you'll see what we mean.
